

# CliniMix® Lead Safe™ Thermostatic Mixing Valves

Fit for high risk and high care environments including hospitals, aged care, child care, education and public spaces.

Designed to protect the most vulnerable, our CliniMix® TMVs give you **precise control** over the delivery of water, enabling the **prevention of scalding and cold water shock** by providing **tempered water** to the desired outlets, in compliance with relevant Australian Standards.

## Australian Made

Genuine Australian Made and owned, providing high quality products and service you can trust.

## Lead Free

Lead free materials, NCC 2022 Vol 3, Clause A5G4(2) 'lead free requirements' compliant where applicable.
