# Safety in Design – Understanding the Challenges

Studies have shown that the optimal environment for patients of mental health facilities is one that mimics a homely environment. This concept is known as “normalisation”. Normalisation has since become more common than the traditional clinical environments of the past which focused on safety aspects rather than aesthetic and design aspects.

## Where are the risks within a mental health facility, and what do these risks pose to patients and staff?

Bedrooms and bathrooms pose the most prominent risks. These private areas can also provide patients with ligature points and the ability for a patient to barricade themselves (with or without hostages) away from staff access and assistance.

Statistics show that the most frequent method of suicide is by hanging or strangulation; this method accounts for 60% of deaths by suicide in Australia (Australian Bureau of Statistics, 2021).

The mental health sector has experienced a decline in staff numbers, due to burnout and safety issues. This raises concerns about the ongoing support and rehabilitation of mental health patients.

It remains a duty of care to ensure that patients are cared for and accommodated in the safest environment possible.

## What is the impact of mental illness?

Over 2 in 5 (44%, or 8.6 million) Australians aged 16–85 are estimated to have experienced a mental disorder at some time in their life, with 1 in 5 (21%, or 4.2 million) having experienced a mental disorder in the previous 12 months (Australian Bureau of Statistics, 2020-21).

Mental disorders accounted for 13% of the total burden of disease in Australia in 2015. (Australian Burden of Disease Study, 2018).

Mental and behavioural disorders were present in almost 63% or 1,974 of deaths of people who died by suicide. (Australian Bureau of Statistics, 2021)

Mental illnesses were the leading cause of non-fatal burden of disease (24%), with most mental illness burden attributable to anxiety disorders, affective disorders (such as depression) and substance use disorders. (Australian Burden of Disease Study, 2018)

How many people are accessing mental health services? In 2020–21 more than 3.4 million Australians (almost half of those who had a mental health disorder) sought help from a health care professional for their mental health. (Australian Bureau of Statistics, 2020-21)

THE MOST FREQUENT  
METHOD OF SUICIDE  
WAS HANGING, A METHOD  
USED IN 60% OF  
ALL SUICIDE DEATHS.

## Our mission in mental health

At Galvin Engineering, designing, manufacturing and supplying safe, green and smart water solutions for high risk and high care environments lies at the heart of what we do.

Galvin Specialised’s unique range of products have been designed exclusively for mental health facilities, rehabilitation, and detention centres.

Our range of bathroom at-risk-patient protection products have been carefully selected from leading international manufacturers or locally manufactured in Australia. The suite of products is recognised as the most effective anti-ligature solutions available worldwide.

Galvin Specialised is committed to providing market-leading products to suit every application. We exclusively design and distribute an extensive range of established products, and are able to modify, adapt, source or create a solution for your unique situation.

The design of our products reflects a new vision and philosophy for mental health facilities that is rooted in hope, healing and recovery. Strong emphasis is placed on designs that incorporate home like, non-institutional, and patient-centred environments that imbue healing, familiarity, and a sense of being valued.

Our design guide addresses each of these key components and provides guidance on creating normalised, warm, and welcoming settings and structures at each of these levels, based on available evidence and best practices.

## How can mental health care facility design help?

Most environmental psychologists agree that the physical environment can reinforce and encourage appropriate behaviour (Gabb, Speicher, & Lodl, 1992). The physical environment can reduce the possibility of suicide by avoiding elements that might support hanging or self-injury.

In 2012, Ulrich, et al compared a number of chemical or physical constraints used in two hospitals and showed that the presence of a bundle of design attributes can decrease patient aggression. These items included availability of private rooms, less crowding, movable furniture, better acoustics, nature window views, nature art, higher daylight exposure, home like design, and proximity and visibility of common spaces to the staff station.

Li et al (2008) and Stewart, Ross, Watson, James, and Bowers (2011), among several other researchers, suggest that building fixtures such as handles, doors, fittings, pipes, curtains, showerheads, grab bars, plumbing, HVAC, and lighting be eliminated to reduce risk of self-harm.

Dobrohotoff, and Llewellyn-Jones (2011) recommend high ceilings to hinder access to ceiling fixtures that can be used as anchor points for hanging. They also recommend collapsible curtain rails to reduce risk of hanging.

Mental health-facility design is a critical component of patient care. The design of mental health facilities affects how services are provided and the efficiency with which care is delivered.

Mental health-facility design has a psychological impact on users and staff. Facility design impacts the beliefs, expectations, and perceptions patients have about themselves, the staff who care for them, the services they receive, and the larger health-care system in which those services are provided.

Facility design can have a significant impact on the beliefs, attitudes, and behaviours of staff and on how staff identify and interact with patients and the environment.

Health-care design operates on both an architectural and interior design levels. The architectural level includes aspects of the external facility, which serves as a first introduction and impacts initial impressions and expectations.

Architecture also includes the external grounds and the internal architectural environment, including the size, layout, and configuration of space. The interior design level includes furniture, flooring, wall colour, texture, trim, use of artwork, and other aesthetic features.

## Health Planning Units Key

Health Planning Units are a key feature of the AusHFG and provide detailed information regarding common clinical departments or services in hospitals and other healthcare settings. To assist with identifying which of our products fall under each of the Health Planning Units, we have utilised the following key throughout the brochure:

### **B.0133 Emergency Short Stay**

A mental health service providing short term admission for those with low to medium acuity mental health problems who present to an Emergency Department and do not require admission to an acute mental health inpatient unit.

### **B.0135 Older Peoples Acute**

An acute mental health inpatient unit providing short to medium term assessment and treatment services for those aged 65 and over and who are experiencing a severe episode of mental illness that cannot be adequately treated in a less restrictive environment.

### **B.1034 Adult Acute**

Short to medium term inpatient assessment and treatment services for adults with possible or diagnosed severe mental illness who cannot be adequately assessed and treated in a less restrictive setting.

### **B.0136 Non Acute**

The management of consumers requiring a non-acute inpatient mental health admission. The scope of this HPU includes rehabilitation and extended care non acute inpatient mental health services, and low to medium secure forensic services.

# Mental Health Bathroom Solution

Mental Health bathroom design should be planned and centered around normalising the users environment with sanitaryware fixtures and fittings that are robust and designed to reduce the instances of self or carer harm. The design of our products reflects a new vision and philosophy for mental health facilities that is rooted in hope, healing and recovery.

# Tapware

Our mental health specific tapware are designed to enhance usability and accessibility with a variety of options including accessible, sensor, and anti-ligature design.

-  B.0133 Emergency Short Stay
-  B.0134 Adult Acute
-  B.0135 Older People Acute
-  B.0136 Non Acute

CliniMix® Lead Safe™ CMV2 Wall Mtd Handsfree POU, Wave On/Off, Chrome Face Plate with Anti-Ligature Outlet

Product Code: 100.81.10.20

Flowmatic® Automatic Concealed Sensor 24v AC for Basin/Sink with SS Face Plate

Product Code: TZ-FLOWTAPC24

GalvinCare® CP-BS Lead Safe™ Anti-Ligature Paddle Handle Wall Top Assembly 1/4 Turn C/D - Hot & Cold

Product Code: 120.71.16.01 & 120.71.16.02

GalvinCare® CP-BS Lead Safe™ Ezy-Grip Wall Top Assembly C/D - Hot/Cold

Product Code: 121.01.03.01 & 121.01.03.02

GalvinCare® CP-BS Lead Safe™ Anti-Ligature Wall Outlet 15 BSP FI

Product Code: 121.41.40.00

GalvinCare® CP-BS Lead Safe™ Multi-Grip Wall Top Assembly C/D - Hot/Cold

Product Code: 121.02.03.01 & 121.02.03.02

GalvinCare® CP-BS Lead Safe™ 75° Angled Wall Fixed Outlet 140mm with Forward Facing Aerator

Product Code: 121.44.40.00

GalvinCare® CP-BS Lead Safe™ Anti-Ligature Wall Outlet 15 BSP FI (110mm)

Product Code: 121.47.40.00

GalvinCare® CP-BS Lead Safe™ Ezy-Grip Basin Set with High Flow Spout

Product Code: 121.63.23.03

GalvinCare® CP-BS Lead Safe™ Multi-Grip Basin Set with High Flow Spout

Product Code: 121.64.23.03

# Basins

Our range of mental health specific basins offer various activation options to accommodate diverse risk levels. These basins are designed with features such as anti-ligature properties, robust construction, and minimum depth requirements, ensuring a secure and adaptable solution.

-  B.0133 Emergency Short Stay
-  B.0134 Adult Acute
-  B.0135 Older People Acute
-  B.0136 Non Acute

Wallgate Anti-Ligature, Anti-Vandal Solid Surface Basin with Dual Outlet & Piezo Activation

Product Code: WHB-200W-AUS

Wallgate Anti-Vandal Solid Surface Wash Basin Back to Wall Waste Concealed Services OTH

Product Code: WHB-100W

Wallgate Wash Hand Basin Solid Surface Front Fixed Exposed Services OTH

Product Code: SHB-05W-NT

Wallgate Small Shroud for SHB-05 Wall Mount Basin

Product Code: SHBS01W

GalvinAssist® 600mm Wall Mount Basin with Overflow (LH/RH)

Product Code: 105.33.10.01 & 105.33.11.01

GalvinAssist® 720mm Accessible Wall Basin without Overflow OTH (LH/RH)

Product Code: 105.30.71.01& 105.30.70.01

Wallgate Anti-Ligature, Anti-Vandal Solid Surface Front Fixed Basin with LH Shelf Integral Outlet OTH

Product Code: WHBV-101W-LH-NB

Wallgate Anti-Ligature, Anti-Vandal Solid Surface Basin with Single Outlet OTH

Product Code: WHB-201W-NB-AUS

Wallgate Anti-Ligature, Anti-Vandal Solid Surface High Secure Basin 1 Outlet, 2 Piezo Activated

Product Code: ALS-181W-2-AUS

GalvinAssist® 650mm Wall Basin Type A without Overflow OTH (non-patient areas only)

Product Code: 106.30.60.01

# Toilets

Our toilets feature a robust selection of anti-vandal, anti-ligature solid surface pans. With a focus on durability and safety, these toilets are designed to meet the unique requirements of secure environments, ensuring both resilience and risk mitigation.

-  B.0133 Emergency Short Stay
-  B.0134 Adult Acute
-  B.0135 Older People Acute
-  B.0136 Non Acute

Wallgate Anti-Ligature, Anti-Vandal Solid Surface Accessible Pan S&P with Grey Integ Seat 460 x 810mm - Front Fixed

Product Code: CWC-155FF-STJ-BC

Wallgate Anti-Ligature, Anti-Vandal Solid Surface Pan S&P with Grey Integ Seat 446 x 702mm - Front Fixed

Product Code: CWC-155FF-STJ-AU

Wallgate Anti-Ligature, Anti-Vandal Solid Surface Ambulant Pan S&P with Grey Integ Seat 476 x 652mm - Front Fixed

Product Code: CWC-156FF-STJ-AM

GalvinAssist® Clean Flush Accessible Toilet Pan with Blue Seat

Product Code: 105.11.10.01

Wallgate WC Electronic Cistern Pack for 1 WC with Cistern, Piezo Activated - Single Button, Dual Flush

Product Code: SCPK01-PB-CIST19

GalvinAssist® Clean Flush Ambulant Toilet Pan with Soft Close White Seat

Product Code: 105.11.20.00

SS Vandal Resistant Dual Flush Plate Assembly for Pneumatic Inwall Cistern with CP-BS Raised Buttons

Product Code: 656512

SS Vandal Resistant Dual Flush Plate Assembly for Pneumatic Inwall Cistern with CP-BS Flush Buttons

Product Code: 656507

Wallgate Pneumatic Activated Concealed Slimline Cistern

Product Code: CIST19-PNEU-2

Pneumatic Activated Concealed Dual Flush Cistern 3/4.5Ltr

Product Code: 601602

# Showers

Our showers feature sturdy and height-adjustable shower heads, coupled with lever and anti-ligature tapware options, ensuring adaptability and accessibility for users.

-  B.0133 Emergency Short Stay
-  B.0134 Adult Acute
-  B.0135 Older People Acute
-  B.0136 Non Acute

GalvinCare® CP-BS Lead Safe™ Anti-Ligature Safe-Connect Shower Head & Hand Shower

Product Code: 121.36.64.92

GalvinCare® CP-BS Hand Shower with Anti-Ligature Wall Connection & Hose Assembly

Product Code: 40707

GalvinCare® CP-BS Lead Safe™ Anti-Ligature Wall Mtd Shower Rose 65

Product Code: 121.33.64.00

GalvinCare® CP-BS Lead Safe™ Anti-Ligature Shower Rose with 100mm Bolting Plate

Product Code: 121.35.64.00

GalvinCare® CP-BS Lead Safe™ Inwall Progressive Anti-Ligature Shower Mixer (Non TMV) - Warm & Cold

Product Code: 120.52.11.04

GalvinCare® CP-BS Lead Safe™ Anti-Ligature Diverter Assembly with Assisted Paddle Handle

Product Code: 120.42.13.00

GalvinCare® Brushed SS304 Anti-Ligature Ceiling Mtd Shower with Removable Plate

Product Code: 121.70.62.11

GalvinCare® CP-BS Lead Safe™ Anti-Ligature Ceiling Mtd Shower Rose with SS Plate

Product Code: 121.70.10.00

ClineMix® CP-BS Lead Safe™ Inwall Thermostatic Progressive Shower Mixer with GalvinCare® Handle - Warm & Cold

Product Code: 100.50.75.01

GalvinCare® CP-BS Electronic Concealed Shower Mixer with GalvinCare® Handle & Controller

Product Code: TZ-FLOWTMSHWINR

# Drains

Our range of drains include options that help mitigate the risks of self-harm, suicide, and contraband concealment, prioritising safety and wellbeing.

-  B.0133 Emergency Short Stay
-  B.0134 Adult Acute
-  B.0135 Older People Acute
-  B.0136 Non Acute

GalvinCare® Polished SS (CRR) Floor Drain Round Vinyl 150x100BSP

Product Code: 303079X

Slip-Safe® SS316 Bolted Cleanout Round 150 x 100 PVC/HDPE/CU Slip-In

Product Code: 67790X

GalvinCare® Polished SS316 (CRR) Floor Drain Round 100x80BSP with Short Tail for Balcony Body

Product Code: 303075X

Slip-Safe® SS Bolted Cleanout Round Vinyl 150x100 PVC/HDPE/CU Slip-In

Product Code: 69468X

HeelGrate® SS Floor Drain Vinyl Round 150 x 100 with SS Body PVC/HDPE/CU Slip-In

Product Code: 303185X

HeelGrate® SS316 Floor Drain Grate Round 150 x 100 PVC/HDPE/CU Slip-In

Product Code: 302185X

GalvinCare® Polished SS316 (CRR) Floor Drain Round Vinyl 100x80BSP

Product Code: 303077X

GalvinCare® Polished SS316 (CRR) Floor Drain Round 100x80BSP

Product Code: 303070X

Slip-Safe® SS316 Bolted Cleanout Round 100 x 80 PVC Slip-In

Product Code: 67710X

PPR Floor Drain Adaptor Ring 80 BSP FI x 100 PVC/HDPE Slip-in

Product Code: 302168

# Accessories

Our range of accessories have been developed to complement our sanitaryware products. The anti-ligature accessories range includes: mirrors, shelves, toilet-roll holders, grab rails and other washroom products.

Wallgate Anti-Ligature, Anti-Vandal Solid Surface Recessed Toilet Roll Holder

Product Code: TRH-04

Wallgate Anti-Ligature, Anti-Vandal Solid Surface Toilet Roll Holder with Front Fixings

Product Code: TRH-02W

GalvinCare® Anti-Ligature Grab Rail 300mm Powder Coated - Vert or Horiz (LH/RH)

Product Code: 42200, 42207

GalvinCare® Anti-Ligature Grab Rail 900mm Powder Coated - Vert or Horiz (LH/RH)

Product Code: 42249, 42256

Wallgate Anti-Ligature, Anti-Vandal Solid Surface Recessed Shower Shelf

Product Code: ALF-04

GalvinCare® Anti-Ligature Solid Surface Recessed Washroom Shelf 500 x 200 x 125mm

Product Code: 42100

GalvinCare® Anti-Ligature 90° Grab Rail 700 x 950mm Powder Coated - Vert or Horiz (LH/RH)

Product Code: 42290, 42294

GalvinCare® Anti-Ligature 30° Grab Rail 700 x 950mm Powder Coated - Vert or Horiz (LH/RH)

Product Code: 42284, 42287

Wallgate Anti-Ligature, Anti-Vandal Solid Surface Shelf Front Fixed 470 x 125

Product Code: ALF-01FFW

GalvinCare® Anti-Ligature Solid Surface Recessed Washroom Shelf 500 x 200 x 125mm

Product Code: ALM-06W

GalvinCare® Anti-Ligature Single Robe/Towel Hook

Product Code: THK-01

GalvinCare® Anti-Ligature Double Robe/Towel Hook

Product Code: THK-02

Whilst all reasonable care has been taken in compiling the information in this document, the designs, dimensions and products shown are indicative only and should not be relied upon without prior approval. Due to our policy of continuous development, we reserve the right to alter any details of specifications or products without notice. All information, drawings, technical specifications and product designs remains the property of Galvin Engineering Pty Ltd.

In the absence of a legal or industry definition of anti-ligature or ligature resistant products, when we use these terms, we are referring to products that are designed and manufactured with the intention of reducing the risk of ligature attachment to the product(s).

Galvin Engineering Pty Ltd will always endeavour to design and test our anti-ligature product(s) to reduce the risk of product ligature attachment that may result in serious injury or death. Whilst all reasonable measures are taken at the time of design, the anti-ligature design of the products are not intended to and will not: a. Replace protective measures that need to be taken in the specific circumstances of usage; b. Substitute the need for supervision of those who may be at risk; c. Protect and or prevent those at risk against any self-harm instances that may occur when installed; and d. Protect and or prevent injury when the risks were unknown to us at the time of the design of the product(s).

Galvin Engineering Pty Ltd does not offer and does not represent or warrant that any product(s) for sale are ligature-free. Therefore, Galvin Engineering will not be liable for any claims, loss, or damages arising from ligature attachment on our products. It is the purchaser's responsibility to ensure that products purchased and installed are suitable for the environments in which they are installed, and suitable supervision and protective measures are in place to protect those at risk.
