Free Standing Units

The Ifo Toilet Suites offer a practical solution for a variety of bathroom layouts. Uniquely designed as a free-standing unit, they do not require coving and are installed off the wall, allowing for easier cleaning and maintenance.

This design also makes them well-suited for corner installations, helping to optimise space in compact or uniquely shaped bathrooms.

Nurse Call

An optional nurse call button can be integrated into the support arms, providing added safety and peace of mind in care environments, where prompt assistance may be required.

The button can be fitted on either the left or right-hand side to suit the specific layout and user needs, ensuring accessibility and ease of use.

Wide Range of Colours and Accessories

Our toilet suites are available in a variety of configurations to suit different needs and design preferences. Choose from models with or without support arms, with the option to add accessories post-installation.

Seats come in a selection of colours to aid with visibility or complement interior design, and are available with either single or double flap options for added convenience.

You can also select between raised or flat flush buttons to enhance accessibility, and include fresh sticks for improved hygiene and odour control.

Seat Colour Options

High Care Solution

The Ifo toilet suite range is designed to meet the demanding needs of high care environments such as healthcare, aged care, and dementia care facilities. They offer essential safety features that enhance comfort and independence for users while supporting caregivers in providing effective care.

Support Arms

Can be folded up and down independently, added or removed after installation, and are rated to support a maximum user weight of 150kg.

Mounting Bracket

A superior method for securing the toilet pan to the floor that protects the waterproof membrane, allows flexible placement, and ensures a secure, lasting fit.

Full range of spare parts available.
