Public Space Solutions

Public spaces play an important role in keeping communities healthy, inclusive, and connected. From parks and sports clubs to schools, transport hubs and beachfront facilities, these environments see high daily use, making reliable, durable and easy-to-maintain water solutions essential.

Durability for High Traffic Environments

Robust, vandal-resistant, and outdoor friendly options designed to withstand frequent use and harsh conditions. Built for demanding public environments, Galvin's solutions deliver long lasting performance without compromising reliability or safety.

Smart Hygiene and Minimal Maintenance

From hands-free activation and water-saving technology to smooth surfaces and thoughtful design, our range helps reduce contamination risks while ensuring safe, efficient operation. By minimising dirt build-up and making cleaning faster and more effective, these features work together to reduce servicing requirements and deliver lasting reliability.

Accessible and Inclusive by Design

Every member of the community deserves safe, independent access to public facilities. Our range includes products specifically designed for people with limited mobility, strength, or dexterity - from lever and sensor-activated tapware with intuitive controls, to accessible toilet suites, grab rails, and basins.

Clear luminance contrast and ease of operation are built in, not added as an afterthought.

Our Range

Bathroom Tapware - durable taps and showers made for heavy daily use with easy-clean surfaces.

Drinking Tapware - reliable lead free bubblers and bottle fillers designed for frequent use and low maintenance.

Food Prep Tapware - hygienic, hard-wearing tapware ideal for busy kitchens and food prep areas.

Sanitaryware - long-lasting, hygienic toilets and basins built for everyday durability.

Accessories - strong, low-maintenance fittings such as grab rails, mirrors and dispensers.

Drains - heavy-duty, slip-resistant drainage solutions.

Designed to endure, built to care.
