

# CliniMix® Lead Free Hob Mounted Thermostatic Progressive Basin Mixer - Lever

Specification Data Sheet

## Features

- Australia's first lead free progressive mixer range is AS/ NZS 4020 tested and certified to AS 4032.4.
- Manufactured using high quality solid brass with less than 0.25% lead content.
- Enables water to be mixed closer to the point of discharge. Minimising warm water which can provide an ideal condition for legionella bacteria to grow.
- Smooth internal and external components and featuring a hygienic flow.
- The long lever sequential control handle is easy to access for users and provides more precise control of flow and temperature. Water flow always starts from cold for safe usage.
- Fast and easy to clean.
- All servicing and commissioning can be done without removing the device. Easy to access isolators helps to minimise the time of commissioning and maintenance.
- Designed to provide stable mixed temperature and rapid shut down in the event of cold or hot water supply failures.

## To Specify

This innovative designed thermostatic progressive mixer provides state of the art features to comply with the latest healthcare requirements.

The single lever operates on/off temperature controls for straight forward operation, simplifying hand wash procedures and the long arm is operated with elbows to avoid hand contact.

### Code:

**100.00.71.00** - CliniMix® Lead Free Hob Mounted Thermostatic Progressive Basin Mixer with Lever.

business

## Performance Standards & Approvals

- AS 4032.4 – WaterMark

## Typical Dimension

## Warranty

Galvin Engineering products are covered under our Manufacturer's Warranty at [www.galvinengineering.com.au](http://www.galvinengineering.com.au). Galvin Engineering products must be installed in accordance with the installation instructions and in accordance with AS3500 and the PCA, relevant Australian Standards and local authorities applicable to product being installed. Water and electrical supply conditions must also comply to the applicable national and/or state standards, failing to comply with these provisions may void the product warranty and affect performance of the product.

## Technical Information

- Inlet: 1/2" BSP - Female
- Outlet: Flow Straightener
- Headwork: Thermostatic Mixing Valve
- Working Pressure Range (kPa): 20 Min - 500 Max
- Working Temperature Range (°C): 5 Min - 85 Max
- Permitted Supply Pressure Variation: 10:1
- Mixed Temperature Range (°C): 35 - 45
- Factory Set Thermostatic Temp. Range (°C): 39 - 41
- Operating Temperature Range (°C): Full cold - 45
- Nominal Flow Rate (LPM): 8
- Flow Rate (LPM): 6 Min
- Construction: Lead Free Brass\*
- Finish: Chrome

\*As 'lead free' is not currently defined by law in Australia and New Zealand, we have based our definition on s1417 of the USA's Safe Drinking Water Act (SDWA) and the relevant US standards NSF61 / NSF372. The SDWA defines 'lead free' as "not more than a weighted average of 0.25% lead when used with respect to the wetted surface of pipes, pipe fittings, plumbing fittings and fixtures".

## Maintenance & Cleaning

Galvin Engineering products should be cleaned with a soft damp cloth using only mild liquid detergent or soap and water. Do not use cleaning agents containing a corrosive acid, scouring agent or solvents. Do not use cream cleaners, as they are abrasive. Use of unsuitable cleaning agents may damage the surface. Any damage caused in this way will not be covered by warranty.

Regular maintenance should be carried out in accordance with the installation and troubleshooting guides provided with the product.

As part of maintaining a safe and reliable plumbing system, we recommend tapware and valves are operated on at least a daily basis.

Whilst all reasonable care has been taken in compiling the information in this document, the designs, dimensions and products shown are indicative only and should not be relied upon without our prior approval. Due to our policy of continuous development, we reserve the right to alter any details of specifications or products without notice. All information, drawings, technical specifications and product designs remains the property of Galvin Engineering Pty Ltd.
