

# GalvinCare® CP-BS Lead Safe™ Mental Health Anti-Ligature Wall Mounted Shower Rose 65 - Std

Specification Data Sheet

## Features

- Anti-ligature (minimises hiding of contraband, suicide and self-harm risk)
- Designed for maximum protection against vandalism
- Constructed from heavy duty components and comes complete with special tamper resistant screws
- For use with high pressure plumbing systems between 150 & 500kPa
- Special consideration may be required when used with low water pressure systems and components
- Chrome finish for easy cleaning and added durability

## To Specify

The GalvinCare® Lead Safe™ Vandal Resistant Shower Rose 65 provides both anti-vandal and anti-ligature features. This shower rose is used extensively in high risk, high-security applications such as prisons, correctional facilities and detention centres as well as Mental Health facilities.

## Typical Dimensions

## Technical Information

- Inlet: 1/2" BSP-Female
- Outlet: Shower Rose
- Working Pressure Range (kPa): 150 Min - 500 Max
- Working Temperature Range (°C): 5 Min - 70 Max
- Nominal Flow Rate (LPM): 7
- Finish: Chrome

## Maintenance & Cleaning

Galvin Specialised products should be cleaned with a soft damp cloth using only mild liquid detergent or soap and water. Do not use cleaning agents containing a corrosive acid, scouring agent or solvents. Do not use cream cleaners, as they are abrasive. Use of unsuitable cleaning agents may damage the surface. Any damage caused in this way will not be covered by warranty.

Regular maintenance should be carried out in accordance with the installation and troubleshooting guides provided with the product, relevant Australian Standards, local authorities and state codes.

As part of maintaining a safe and reliable plumbing system, we recommend tapware and valves are operated on at least a daily basis.

## Warranty

Galvin Engineering products are covered under our Manufacturer's Warranty at [www.galvinengineering.com.au](http://www.galvinengineering.com.au). Galvin Engineering products must be installed in accordance with the installation instructions and in accordance with AS3500 and the PCA, relevant Australian Standards and local authorities applicable to product being installed. Water and electrical supply conditions must also comply to the applicable national and/or state standards, failing to comply with these provisions may void the product warranty and affect performance of the product.

Whilst all reasonable care has been taken in compiling the information in this document, the designs, dimensions and products shown are indicative only and should not be relied upon without our prior approval. Due to our policy of continuous development, we reserve the right to alter any details of specifications or products without notice.
