Multi-Purpose Rain Water Outlet Vertical

Flat Non Clamp Ring

Specification Data Sheet

285007

Ductile Iron Multi-Purpose HD Flat Vert Rain Water Outlet (No Mem) 100PVC/HDPE.

Specifications

Ductile iron grey enamel coated rain water drain with built in puddle flange and heavy duty galvanised ductile iron flat grate with stainless steel lock down screws.

Features

- Removable grate for ease of access without disturbing the puddle flange.
- Roof drain body fits various piping systems.
- Large open area of the grate permits unrestricted water flow.
- Ductile iron grate as per 150 1083/55/500-7/J to AS 1831.
- Compiles with AS 3996 to Class D.

Typical Dimensions

Application

The Flat Grate Non Clamp Ring version outlet is primarily designed for concrete slabs/floors where no membrane is fitted (e.g. multistorey car parks, balconies, etc). The built in puddle flange will collect any water seepage around the outlet, and is discharged through the weep holes into the drain. This prevents moisture penetrating to lower levels.

Grate Material	Body Material	A	B	C	D	Connection Type
DI	DI	245	100	260	100	PVC/HDPE/Cu

A family owned Australian business

Typical Installation

Note

- Slip on copper connection is available by request

Maintenance & Cleaning

Red Emperor products should be cleaned with a soft damp cloth using only mild liquid detergent or soap and water. Do not use cleaning agents containing a corrosive acid, scouring agent or solvents. Do not use cream cleaners, as they are abrasive. Use of unsuitable cleaning agents may damage the surface. Any damage caused in this way will not be covered by warranty.

Regular maintenance should be carried out in accordance with installation and troubleshooting guides provided with the product, the relevant Australian Standards, local authorities and state codes.

Tea staining is an installation and maintenance issue. To reduce the risk of tea staining, products should be regularly cleaned. In certain environments corrosion reducers/inhibitors may need to be regularly applied, and consideration should be given to the use of electropolishing or other surface coatings.

Note: It is recommended higher grades of stainless steel be specified for corrosive or coastal areas.

Warranty

Red Emperor products are covered under our Manufacturer's Warranty at www.galvinengineering.com.au. Red Emperor products must be installed in accordance with the installation instructions and in accordance with AS3500, PCA, relevant Australian Standards and local authorities applicable to product being installed. Water and electrical supply conditions must also comply to the applicable national and/or state standards, failing to comply with these provisions may void the product warranty and affect performance of the product.

Whilst all reasonable care has been taken in compiling the information in this document, the designs, dimensions and products shown are indicative only and should not be relied upon without our prior approval. Due to our policy of continuous development, we reserve the right to alter any details of specifications or products without notice.
