Working Pressure Range (kPa)	Min	5
	Max	65
Working Temperature Range (°C)	Min	50
	Max	500
Nominal Flow Rate (LPM)	N/A	
Construction	Brass	
Finish	Chrome	

**NOTE:** Galvin Engineering continually strive to improve their products. Specifications may change without notice.

## TOOL REQUIRED

- Spanner or adjustable crescent

## DIMENSIONS

167.94.10.01 / 167.94.10.02

## INSTALLATION

**INSTALLATION COMPLIANCE:** Galvin Engineering products must be installed in accordance with these installation instructions and in accordance with AS/NZS 3500, the PCA and your local regulatory requirements. Water and/or electrical supply conditions must also comply to the applicable national and/or state standards. Failing to comply with these provisions shall void the product warranty and may affect the performance of the product.

### 1. Replace existing top assembly

- Remove existing top assembly and replace with new top assembly
- Use an adjustable spanner to tighten

### 2. Testing

- Turn on water supply and check for correct operation

**TROUBLESHOOTING**

PROBLEM	CAUSE	RECTIFICATION
Inconsistent flow	Blocked top assembly	Remove top assembly and clean
Water is not flowing from tap	Water is turned off	Turn on water
	Blocked flow restrictor	Remove restrictor and clean/replace
Continuous flow	Top assembly cartridge loose or internally obstructed or damaged	Remove cartridge, clean with water and re-grease spindle if required

**WARRANTY**

Galvin Engineering products are covered under our Manufacturer's Warranty. Galvin Engineering products must be installed in accordance with the installation instructions and in accordance with AS 3500 and NCC Volume Three, relevant Australian Standards and local authorities applicable to product being installed. Water and electrical supply conditions must also comply to the applicable national and/or state standards, failing to comply with these provisions may void the product warranty and affect performance of the product.
